

Could you be a Professional Childminder?

Are you interested in a rewarding career that you can fit around your own children?

Do you enjoy caring and having fun with children?

@Home Childcare is looking for local people we can train and support to become childminders.

You will care for children, helping them to learn and develop.

Childminders are self-employed professional childcarers. You will be your own boss working in your home so you choose your working hours.

It's a great time to work with children! The government is encouraging people to open up more childcare businesses. You can now access:

- Discounted training if you live in high demand areas in Nottinghamshire
- £500 grant to set up as a childminder (available once you are registered)
- Funding for you to provide childcare to parents with children aged 2/3/4

@Home Childcare can help you set up as a childminder with:

- Convenient online briefing explaining how to register
- Support to guide you through registration process
- All the induction training you need to register
- A mentor to provide on-going support once registered

Interested? Contact @Home Childcare for more information:
